Electrochemistry, 2nd, Completely Revised and Updated ...
One of the most important issues is the interaction of metals with solutions of strong acids. To qualitatively evaluate the possibility of dissolving a metal in strong acids, one can use the electrochemical series of metals. Metals, which are on the left side from hydrogen in electrochemical series, react with strong acids and release hydrogen.

Hamman, C. H.; Hamnett, A.; Vielstich, W. Electrochemistry ...
Electrochemistry : Carl H. Hamann : Electrochemistrg result is required reading for those majoring in chemistry, as well as those studying chemical engineering, materials science and physics. Following his studies in mathematics, physics, biology and economics in Hamburg and Bonn, graduating in as a physicist, Carl H.

Electrochemistry By Carl H. Hamann (Universitat Oldenburg, Germany), Andrew Hamnett (University of Newcastle, United Kingdom), and Wolf Vielstich. This textbook provides a concise introduction to the fundamental principles of modern electrochemistry. The authors are renowned scientists and experienced .

ELECTROCHEMISTRY BY CARL H.HAMANN PDF
Electrochemistry : Carl H. Hamann : His primary academic interests in recent years include the development and utilisation of spectro-electrochemical techniques in electrochemistry, and the development of improved fuel cells and solar-energy conversion devices. A very solid and useful textbook. I highly recommend it to students and researchers.

ELECTROCHEMISTRY CARL H HAMANN PDF
Electrochemical Methods: Fundamentals and Applications by Bard and Faulkner is a vastly superior text book and explains concepts much clearer than Hamann. Hamann does go a little bit more in depth into thermodynamic concepts but Bard and Faulkner is the way to go.

Research (Research Description PDF). Hamann Group Research: There is a LOT of energy from sunlight striking the Earth's surface: approximately 10 17 Joules/second. For comparison, the averaged worldwide energy demand is approximately 10 13 Joules/second. The Hamann group is engaged in interdisciplinary research to address basic science issues related to new methods and materials for ...
