Montrul(2012) summarizes that syntax (and phonology) are the most resilient area(s) of grammar for heritage speakers, where they have the most advantages over L2 learners. However, aspects at the syntax-discourse interface (semantics and inflectional morphology) seem to be very vulnerable for heritage speakers.

Syntactic and Discourse Features in Chinese Heritage ...

Time in Natural Language investigates the relationship between the syntactic and semantic representations of sentences within the domain of tense. Assuming that tenses are semantically composed of three distinct times, Thompson proposes that these times map onto the syntax in a regular fashion: each time is associated with a unique syntactic head. Adopting the Minimalist approach to syntactic ...

Syntax and Semantics (SYNTAX SEMANTICS)

Pragmatics is a subfield of linguistics and semiotics that studies how context contributes to meaning. Pragmatics encompasses speech act theory, conversational implicature, talk in interaction and other approaches to language behavior in philosophy, sociology, linguistics and anthropology. Unlike semantics, which examines meaning that is conventional or "coded" in a given language, pragmatics ...

Pragmatics - Wikipedia

The aim of the Syntax and Semantics series is to publish exciting and innovative research involving the sub-systems of grammar that interface with syntax and semantics. This crucially includes the syntax-semantics interface itself, but also the systematic interplay of syntax and semantics with pragmatics, information structure and discourse.

Syntax and Semantics - Brill

LDA is a discourse analysis with lexical-semantic input. It is neither a semantic analysis within discourse nor a semantic analysis of discourse; The linguistic properties of the units are linked to discursive functionings. They are neither considered nor disregarded in themselves; Meaning must be considered in its predicative dimension.
