While most feminist theorists throughout history have been women, people of all genders can be found working in the discipline today. By shifting the focus of social theory away from the perspectives and experiences of men, feminist theorists have created social theories that are more inclusive and creative than those that assume the social actor to always be a man.

## **Sociological Perspectives on Family | Boundless Sociology**

Sociologists study social events, interactions, and patterns, and they develop a theory in an attempt to explain why things work as they do. In sociology, a theory is a way to explain different aspects of social interactions and to create a testable proposition, called a hypothesis, about society (Allan 2006).. For example, although suicide is generally considered an individual phenomenon ...
