Track Lighting Buying Guide - Lowe's

The apron, also called skirt or skirting, refers to the portion of the dining table that is vertically positioned beneath the table top.This serves to hide any corner blocks, bracing, or any mechanical pieces underneath the table. The Colonial Plantation Rectangle Dining Table Weathered Teak, pictured to the left, is a great example of a table with an apron.

Standard Dining Table Dimensions: The Size Guide

Kits are available for many sizes and types of recessed lighting. Line-voltage kits are the standard light kit. They run on household current. Low-voltage kits use a transformer to reduce household voltage and help with energy costs but are more expensive. Some kits have a built-in transformer; others require a transformer that's sold separately.

Recessed Lighting Buying Guide - Lowe's

This Lighting Guide shows a suggested basking Ultraviolet index (UVI) per species for different distances from the lamp to the animal's head. In order to work out these values we looked at the available index of the home range (the species' wild geographical area) using data from weather stations around the world at 11am.
