Ziggurats were ancient towering, stepped structures built in the ancient Mesopotamian valley and western Iranian plateau, having the architecture form of a terraced step pyramid of successively receding stories or levels. They were made of mud-brick that appear to have served as temples to the ancient gods of Mesopotamia. Ziggurat bases were square or rectangular.

Ziggurat Architecture in Mesopotamia - ArchEyes

A general map of Mesopotamia and its neighbouring territories which roughly covers the period from 2000-1600 BCE reveals the concentration of city states in Sumer, in the south. This is where the first true city-states arose, although the cities of northern Mesopotamia and Syria were roughly contemporaneous. However, the latter remained relatively minor states with a less intensive level of ...

We may also exclude all of Mesopotamia before the Late Bronze Age because there is no evidence Egypt ever exercised cultural or religious influence on Mesopotamia at any time before the Late Bronze Age (1600 B.C.) . In fact, no evidence exists that Egypt and Mesopotamia were even aware of each other during the Middle and Early Bronze periods.
